● About me

I completed my BA (Hons) in Graphic Design at Arts University Bournemouth in 2024 and am currently pursuing an MA in Graphic Branding and Identity at the London College of Communication, part of the University of the Arts London (UAL).

Previously, I completed an international foundation program in Graphic Design at the Central Academy of Fine Arts (CAFA) in China. Throughout my academic journey, I have developed a strong skill set in graphic design, motion graphics, and brand identity design, all of which are reflected in my portfolio. I am also proficient in a wide range of design software, with particular expertise in the Adobe Creative Suite.

I am highly motivated about my future career and passionate about creating design solutions that meaningfully address the needs of target audiences. I aspire to produce work that is both aesthetically engaging and functionally impactful.

My strengths lie in graphic design, and I have a strong interest in packaging, logo development, and brand identity. I am eager to continue growing in these areas and contribute to purposeful, user-centred design.
